

Community mailbox posts have a 4" x 6" post and 2" x 4" arms. These mailboxes can be installed with or without routed edges.

As long as the mailboxes conform to these specifications, they may be installed by any vendor. However, the association does have a vendor who has installed one in the community.

These mailbox posts are available installed from Terry Elias. He can be reached at tellias@tampabay.rr.com or 727-518-5331.
